1. Introduction

Course Overview

CORPORATE SCHOOL is proud to offer the *Cloud Computing Basics Course*, designed to introduce participants to the concepts and technologies behind cloud computing. In this course, you will explore the foundational principles of cloud computing, its various service models, deployment options, and practical applications in real-world business environments. Whether you are a business professional, a technical enthusiast, or someone looking to expand their IT skills, this course will help you gain a solid understanding of cloud technology and its advantages for organizations.

By the end of this course, participants will be well-equipped to understand the core principles of cloud computing and how it can be used to improve business operations and drive digital transformation.

Target Audience

This course is designed for:

- **Business professionals** looking to understand cloud technologies and their impact on business operations.
- **IT professionals** and **developers** seeking foundational knowledge of cloud computing.
- **Entrepreneurs** and **startups** exploring cloud solutions to scale their business infrastructure.
- **Students** and individuals considering a career in cloud computing or IT.

2. Course Description

What You Will Learn

The *Cloud Computing Basics Course* covers the essential concepts that will provide you with a strong foundation in cloud computing:

- **Introduction to Cloud Computing:** Learn what cloud computing is, its evolution, and why it is essential for modern businesses.
- **Cloud Service Models:** Understand the different types of cloud services—**Infrastructure as a Service (IaaS)**, **Platform as a Service (PaaS)**, and **Software as a Service (SaaS)**—and their applications in business.
- **Cloud Deployment Models:** Explore the four main cloud deployment models: **Public**, **Private**, **Hybrid**, and **Community** clouds.
- **Key Cloud Providers:** Gain an overview of leading cloud service providers such as **Amazon Web Services (AWS)**, **Microsoft Azure**, and **Google Cloud Platform (GCP)**.
- **Cloud Security and Compliance:** Understand the key concerns surrounding cloud security, data privacy, and compliance regulations.
- **Cloud in Practice:** Learn how organizations are adopting cloud solutions for various purposes such as data storage, computing, and business continuity.

Course Benefits

- **Fundamental Understanding:** Get a solid grasp of cloud computing technologies and their application in modern business.
- **Hands-On Experience:** Participate in practical demonstrations of cloud services, with guided exercises and use cases.
- **Skill Building:** Build the foundational knowledge needed to pursue advanced cloud certifications or roles in IT.
- **Business Efficiency:** Learn how cloud computing can reduce costs, improve scalability, and increase business flexibility.

3. Course Schedule

Duration

The *Cloud Computing Basics Course* is a **4-day program** designed to fit into a busy professional's schedule. It is offered both in-person and online, ensuring accessibility to learners from different locations.

In-Person Course Schedule:

- **Location:** 42 King Street, Brisbane, Queensland, Australia
- **Dates:** Monday to Thursday, from 9:00 AM to 4:00 PM each day.

Online Course Schedule:

- The online format mirrors the in-person schedule and includes live webinars, virtual labs, and interactive Q&A sessions.

Detailed Weekly Schedule

Day 1: Introduction to Cloud Computing

- Morning: What is Cloud Computing? Historical Context and Evolution
- Afternoon: Cloud Computing Models: IaaS, PaaS, SaaS

Day 2: Cloud Deployment Models and Key Providers

- Morning: Understanding Public, Private, Hybrid, and Community Clouds
- Afternoon: Overview of Leading Cloud Service Providers (AWS, Azure, GCP)

Day 3: Cloud Security, Compliance, and Risk Management

- Morning: Understanding Cloud Security Issues and Best Practices
- Afternoon: Compliance Regulations, Data Privacy, and Cloud Security Tools

Day 4: Practical Applications of Cloud Computing

- Morning: How Businesses Use Cloud Computing for Storage, Computing, and More
- Afternoon: Practical Demonstration: Setting Up Cloud Services (Hands-on Lab)

4. Pricing

Course Fees

- **In-Person Option:** AUD \$1,300 per participant (includes all materials, lunch, and refreshments)
- **Online Option:** AUD \$1,100 per participant (includes access to live webinars, course materials, and digital resources)

Payment Options

- **Full Payment:** Due at the time of registration.
- **Installment Plans:** Available upon request. Please contact us to discuss personalized payment options.

5. Location Options

In-Person Location:

CORPORATE SCHOOL – Brisbane Campus

- **Address:** 42 King Street, Brisbane, Queensland, Australia

- **Facilities:** Modern classrooms equipped with high-speed internet, interactive whiteboards, and breakout spaces for group discussions. Brisbane is a vibrant city, offering great amenities for both work and leisure during your stay.

Online Format:

For those who cannot attend in person, we offer an online version of the course. The online course includes live interactive sessions, a secure portal to access course materials, and opportunities for real-time Q&A. The online format is designed to provide the same high-quality learning experience as the in-person course.

6. Registration Information

How to Enroll:

Enrolling is simple! Visit our website at www.corporateschool.com and complete the registration form, or contact our enrollment team at +61 7 1234 5678. You will receive an email with further instructions once your registration is confirmed.
